

Cardboard Guidelines

This information will provide customers with the proper cardboard recycling procedures used by First Piedmont Corporation. These procedures are based on recycling industry standards.

The following is a list of commonly found contaminants that should not be placed or mixed in the cardboard recycling containers.

- Waxed containers
- Styrofoam of any kind
- Plastic bags or liners
- Wet containers
- Mixed paper such as office paper, computer paper, cereal boxes, etc.
- Beer or drink cartons, including the plastic rings around the top
- Cardboard contaminated with food waste, motor oil, liquids, or any type of waste
- Miscellaneous items such as wood, plastic, metal, glass, etc.
- Hicombs (plastic 6 pack drink holders)
- General garbage

Please remember to break down boxes to utilize all space in the recycling container.
